SELECTMEN'S REPORT

During the past year, the selectmen have spent a great deal of time on the re-evaluation of properties, as well as new developments. We believe that with few exceptions, the property values will remain stable for some time. This means that your taxes should not change unless so voted at the Town Meeting.

Early in the spring, State engineers were asked to explore the problems involved on installing the water and sewer systems in the Town Hall. Plans were submitted to the selectmen calling for the septic system to be installed below the Town Hall. After several meetings with the State officials, it was decided that this area was too close to the adjoining property. It was also decided that we could not meet the requirements to drill a well on town property. This made it necessary to look for alternate sources of water. It was finally decided to utilize the school well, which we were assured has an ample supply. New plans were also drawn up to install the septic system in the rear of the hall.

When the water project was started, it was necessary to go around the school house so as not to disturb the school's septic system. We then went across the Church yard, Center Pond Road and down the east side of Route 123, crossing the road in front of the Town Hall.

After reviewing the additional cost, which was higher than the appropriation, it was decided that it would be in the best interest of the Town to go ahead as soon as possible, so that it would be available for the Bi-Centennial.

The water pipe is now all laid and ready to connect at both ends. Some smoothing of the yards will be necessary in the spring. The septic system is also all installed and ready to be connected to the Hall.

Soon after town meeting last year, we decided to vacate the Library, as they were badly in need of more space. To do this, we moved into the old office room at the Town Hall. However, to carry on in cold weather, it was necessary to make some changes in the heating system. We also at this time, made the arrangements for the heat in the new toilets. This, with the increased fuel cost, has increased our cost of Town Hall expenses over the last year.

We are pleased to report that the new truck has proven very

satisfactory.

During the past year, we have received many complaints about the condition of the town roads. We have tried to keep them in passable condition with the money available; however, we believe a definite program of rebuilding should be undertaken in the spring, the town to raise the money accordingly.

During the past year, we were forced to rebuild the lower end of the old Antrim Road, a portion of Shedd Hill Road, as well as part of the Bailey Road, and Juniper Hill Road. These were all badly washed out, as we were not eligible for Federal Aid, this was all charged to our summer road account.

Respectfully submitted,

ROBERT C. RUMRILL
EMILE J. VAILLANCOURT

REPORT OF LIBRARY TRUSTEES

Library hours for 1973 were held on Thursday evenings from 7-9 p.m. and on Tuesday mornings from 9-11:30 a.m. during school session.

The back room of the library was painted, new book shelves, table, chairs and several new books were added to make a pleasant childrens reading room this year.

On September 11, 1973, we initiated the school library program with a discussion about why we have a library and how we should use its facilities. Our program, after the children selected their books, has included films, library posters, writing and illustrating stories, reading to each other and art for special holidays. It has been an enjoyable experience.

With the help of three trips from the Bookmobile and Keene Public Library the librarian was able to keep up with the demand of several requested books.

Expression of thanks to those who have made Nineteen Seventy-Three a very fulfilling year and for all the donation of books we have received.

NORTH CHESHIRE COUNTY HOME HEALTH SERVICE
BOX 36, GILSUM, N. H. 03448
357-9069

ANNUAL REPORT TO TOWNS

The Agency has provided the services of a registered nurse on a visiting part-time basis for twenty hours per week. A registered physical therapist and a male licensed practical nurse are available by appointment on a contract arrangement. Nursing services offered include skilled care of the sick at home, health guidance and assistance in referral to other community resources.

The Child Health Conference which provides free medical supervision and immunizations to low-income families has been maintained. The clinics are held in the Gilsum Church on a monthly basis. This program has provided children in 21 families with 97 doses of vaccines in 96 clinic visits.

In addition a family health discussion group has been held in conjunction with the C.H.C. All parents are invited to this informal discussion with the doctor about pertinent health topics.

It is the people of the towns who have made these services available with tax money and contributions to our membership drive. Many have helped by volunteering their time to serve on the Board, on committees, in membership drives, assisting at clinics and providing transportation. Without all of your help it would be impossible to provide these important services.

REPORT OF CONSERVATION COMMISSION

During the past year work of the Conservation Commission as such has been somewhat limited while members have been active representing the Commission on the many other activities going on in town during the year.

We can report that work on development of a soils map covering the more critical areas of town is well underway and the U. S. Soil Conservation Service has promised completion of this work by October 1974. When completed these maps will be available to the Selectmen as well as the Planning Board and also available for public inspection and use.

The Chairman has also been serving on the Planning Board as a Commission representative, as well as taking an active part in the publishing of a new town history by the Stoddard Historical Society.

A second member, Rolfe Jacobs, has been serving as a Selectman; while a third, Charles Eaton, has taken on major responsibility in the work of the 1974 Bi-Centennial Committee.

Interest in serving on this Commission has been quite limited and active participation by possible new members is desirable.

If anyone might be interested in becoming a member of the Conservation Commission we suggest you contact the Selectmen and/or a present member of the Commission.

REPORT OF STODDARD FIRE DEPARTMENT

The fire department had 20 calls for 1973. One resuscitator call, 3 stand bys, 1 brush fire, 2 dump fires, 1 chimney fire, 1 mattress fire, 1 sofa fire, 1 lost child, culverts flushed out on Shedd Hill, fire in Hancock, 3 cottage fires, 1 car fire, 1 false alarm, pumped water out of a cellar, and cleaned 12 chimneys.

Some of the members attended a first aid course in Marlow.

SUPERINTENDENT OF SCHOOLS MESSAGE

An annual message is most difficult this year in this period of national duress with everyone atuned to the energy crisis, overall economic unrest, political chaos and the many socio-economic pressures generated from these factors. Education in depth has become intrinsically more and more significant through the years to preserve individual identity and help to prepare all members of our society to be able to effectively cope with the pressures wrought.

We have seen educational strides in the district with sound efforts being made to broaden programs of studies and at the same time attempting to meet individual differences. Throughout the Supervisory Union the staff turnover has been higher than normal as has been the administrative change, but curricular improvement has been effected.

With some new programs, new approaches, greater interaction, and focusing on student individuality, the schools' administrators and teachers have worked hard in improving the educational process. Discussion is under way relative to vocational education and seeking outlets for students desirous of intensive programs. Additionally there has been far more concern manifested for children with learning handicaps, and additional staffing has been added to help correct deficiencies in language arts, assist slow learners, and assist in learning disabilities.

The proposed budget reflects the inflationary factors that have reached every facet of our economy. Wherein previously the fixed cost budget was computed using past performance criteria and standard rates, the recent energy crisis issues have grossly inflated here-to-fore stabilized prices and left us with many doubts and fears of under-budgeting. As we have all seen in our day to day living costs, no single area is exempted from increase and critical shortages exist with many products.

Many legislative changes occurred as a result of the last legislative session. The majority of changes were procedural, but direct impact items include: (1) Each school board shall make a nutritious breakfast or lunch available to every pupil under its jurisdiction. Schools that have not previously had meals may make application for waiver, but no waiver may extend beyond September 30, 1979. (2) Nutrition education shall be integrated into the regular courses of instruction for grades K-12. (3) In addition to alcohol and drug education, instruction shall also be given on venereal diseases and their effect on the human system.

(4) Districts not maintaining high schools must now pay full tuition of its students who attend high schools in other districts, (5) and of course, amendments or insertions for legal age of eighteen in the many statutes.

Although less emphasis has been forthcoming, the initial goals for implementation of local minimum standards to correct deficiencies have been largely or totally met at this juncture.

The voucher system has been discussed with each board and now some districts are making preparations for institution of this educational alternative project.

Through the years we have seen an ever expanding educational process and many ramifications have evidenced themselves, sometimes budgetarily, some with major problems in articulation, but in every instance we have packed more and more into a 180 day schedule. We have had good community support for which we are most appreciative. The interactive process of education and society brings a multiplicity of opinions and standards, thus making decision-making most difficult. I thank you for your support, understanding and assistance in improving our educational ventures.
